

# LOLA sunlounger

Resin sunlounger manufactured with polypropylene, horizontal frame to allow for a perfect rest. Its design ensures safety features to avoid balance of the deckchair. The back rest allows for five different positions from 60° down to the horizontal option. Fabric or slats sunlounger options (T references) available.

**Frame:** Polypropylene monoblock reinforced with a mineral filled polypropylene. Anti-UV treatment. Weight: 13.1Kg.

**Balliu fabric:** Breathable fabric constructed with double weft and double warp, 1.25 mm thick and 870 g/m<sup>2</sup> density. Made of a continuous polyester thread core (30%) coated with PVC (70%). Light resistance index 8. Long-lasting anti-microbial protection against the formation of bad smells and the appearance of stains caused by moisture. Finished with a heat-setting process which prevents the fabric from tearing. Made by means of thermal welding, to prevent it from tearing. The eyelets are made of stainless steel. Weight: 1.35Kg.

**Elastic cord:** Made of a latex core (69%) coated with polypropylene (31%). 7.2 mm diameter, 3.87 g/m<sup>3</sup> density. Resistance to breakage: 130 kg. Finished with an injected plastic terminal. Weight: 0.15Kg.

**Packed by:**

Type: Palet  
Units: 14  
Measurements: 200 x 78 x 178 cm.  
Weight: 229,1 Kg.  
Volume: 2,77 m<sup>3</sup>

**Loading Capacity**

Mega trailer: 520 u.  
Container 20': 160 u.  
Container 40': 330 u.  
Container 40' HC: 400 u.

**MAINTENANCE SCHEDULE**

**Weekly:** Visual check of the general condition of the sunlounger, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

**Monthly:** Check fabric tension. Check the structural strength and stability. Check the condition of wheels and strings.

**Yearly:** Check the condition of the fabric and ensure it is correctly tensed. Check the backrest and adjuster are working correctly. Replace any worn or damaged parts.

**Wintering and storage:** Clean with soapy water and a soft cloth. Remove damp stains, sand and seawater. Store horizontally in a dry place in stacks of 10 units.

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the sunlounger is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the sunlounger until maintenance is completed.
- Consult the maintenance instructions.
- Do not use aggressive chemicals to clean the sunlounger. Always use products with a neutral pH.
- Use a soft cloth to clean the sunlounger.
